

Dear Editor,

I writing to let you know that there's an important issue on the upcoming ballot; Issue 14, supporting the County of Summit ADM Board. I did a little research and found out that programs and services funded by the ADM Board impact more than 50,000 people in Summit County each year. These critical treatment and prevention programs safeguard Summit County from addiction and mental illness.

With the opioid epidemic ravaging the county, it's important to know that Issue 14 will continue to fund 24-hour services for mental health and drug related emergencies, which has contributed to a 63% decline in opioid related deaths since 2016. And Issue 14 funds treatment for everyone, regardless of their ability to pay. What's more, this levy is a RENEWAL, NOT A NEW TAX, which means it will only cost the owner of a \$100,000 home about \$7 per month. That seems reasonable to me.

Here's how voters can help. When you vote "Yes" for Issue 14, you're voting for prevention, treatment and support of addiction and mental health services and programs. Let's help keep our families, and our communities safe. Please join me in voting "Yes" for Issue 14 on November 5th!
