

Dear Editor,

I know your paper cares about the community the way that I do. That's why I wanted to alert you to an important issue. It concerns supporting our youth, seniors and families at risk in our area and how we can best help them. I recently learned that the County of Summit ADM Board helps 50,000 people each year who are in need of mental health and addiction treatment and prevention services.

Issue 14 is a levy renewal, not a new tax, that will continue to fund these important services to all people in our community. Students in 17 school districts participate in Issue 14 funded programs to combat drug abuse and suicide prevention. And over 3,000 older adults take part in mental health and addiction treatment also funded by Issue 14. In addition, Issue 14 allows the ADM Board to provide services to everyone, regardless of their ability to pay. This to me, is something worth voting for.

Keeping our families, our kids and our seniors safe and healthy is important to me. The ADM Board believes in providing help when people need it the most. So when you vote FOR Issue 14, they support the important work that the ADM Board does in keeping our communities safe and healthy. Please join me and Vote for "Yes" for Issue 14 on November 5th!
